

UniFoilPrinter

Upgrade documents
on a personal level

UniFoilPrinter

Because emotions are essential
in communication.

Gold printing was an expensive and time consuming process. With the UniFoilPrinter everything is changing. From now on you can bring emotions to your print with shiny gold, silver, etc.

Emotions are essential in relationships. Unibind is giving you an exceptional tool to bring emotions in every step of your relations with your friends, your customers, your suppliers and all your stakeholders. By personalizing documents, you will create stronger bonds.

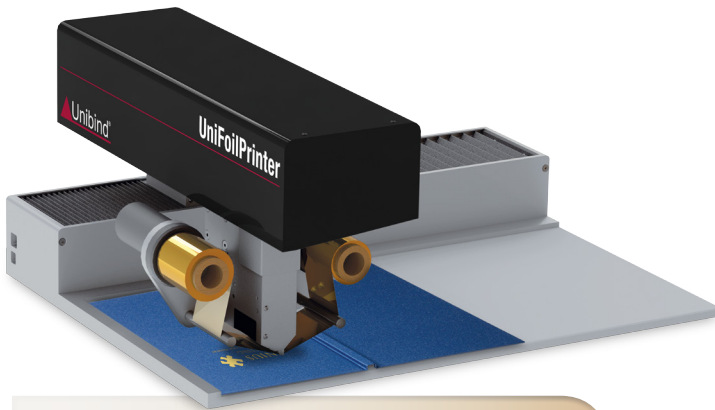

The new UniFoilPrinter allows you to personalize your books, notebooks, agenda, contracts... If you are about to present an offer, a contract or even yourself in a meeting, **with the UniFoilPrinter your work always stands out.**

The UniFoilPrinter is a **digital printer** that prints foil directly from a digital file on any flat surface. Just connect the UniFoilPrinter to your computer, download the software and start printing.

UniFoilPrinter

Because emotions are essential in communication.

▲ Multiple colors

The UniFoilPrinter can print in different colors. We have foil available in: **Metallic Gold, Silver, Black, Blue, and Red.**

▲ Easy to use software

You can place this plug and play printer on your desk, connect the printer to your computer, install the software and start printing. There is no need for complicated installation procedures. You will always have the latest features available thanks to the automatic update function.

▲ Versatile

The UniFoilPrinter is very versatile. You can print text, drawings, logos, special fonts, ... on any surface. You can even print on the spine of book covers, regular paper and cardstock.

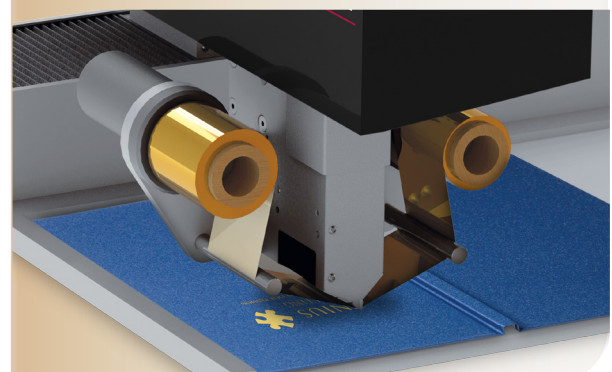

▲ Multiple surfaces

The UniFoilPrinter can print on different surfaces such as SteelCrystal, SteelMat, SteelBook, UniFlexCover, UniHardCover, leather books and various flat materials. Thanks to the adjustable pressure it prints on **flat, smooth, semi-smooth and coated surfaces.**

▲ Cost effective production

Thanks to the unique production process, the UniFoilPrinter has no need for die or ink. Starting from one, your production cost will be constant thus providing you with a unique advantage: **low cost personalisation on smaller accounts.**

Practical examples:

UniFlexCover

Agenda Book

Business Card

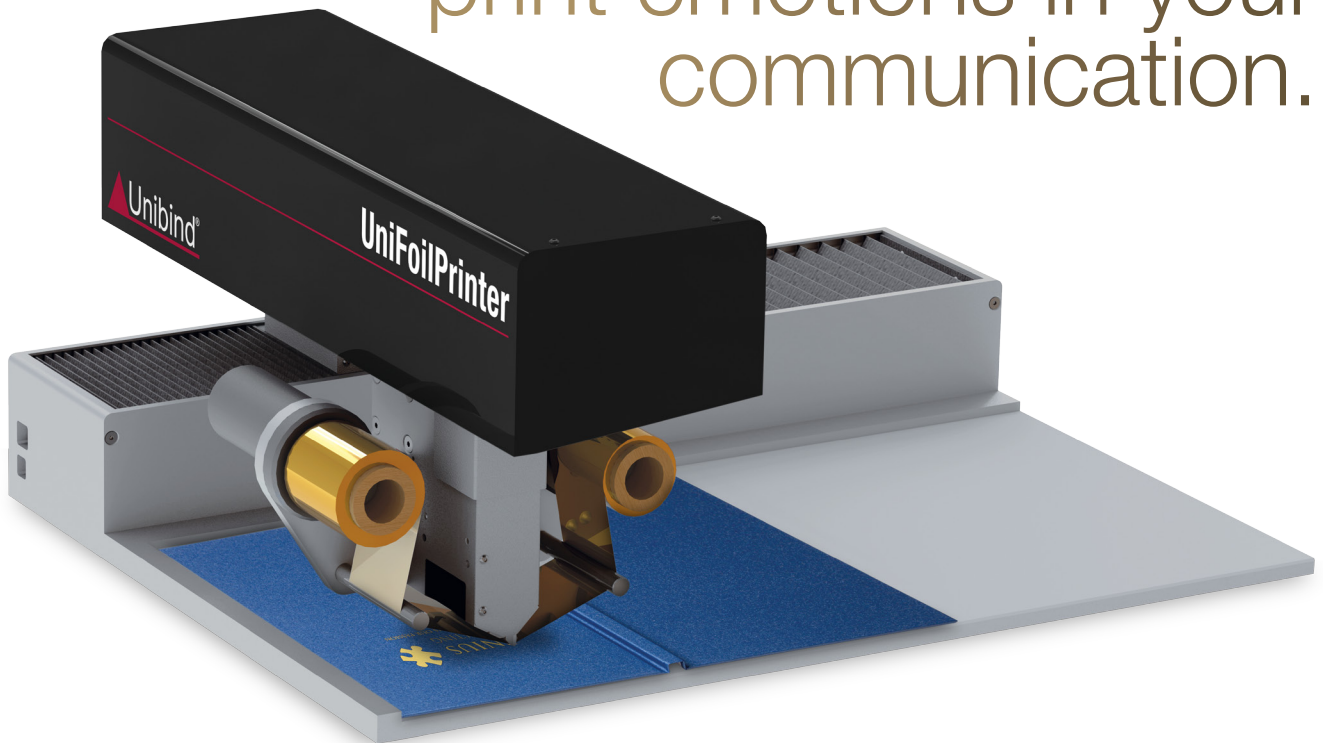

Wedding Invitation

UniHardCover
